Let's Start!

Writing Spot: Wash your hair with our exquisite Rainforest Shampoo. The exotic smell brings the Rainforest to life!

Learning Outcome

Accurately use information about travel and vacations in social situations.

Ask a partner:

- What kind of shampoo, conditioner and soap do you use?
- Is it important for them to have natural ingredients? Why or Why not?

Can Do Statements

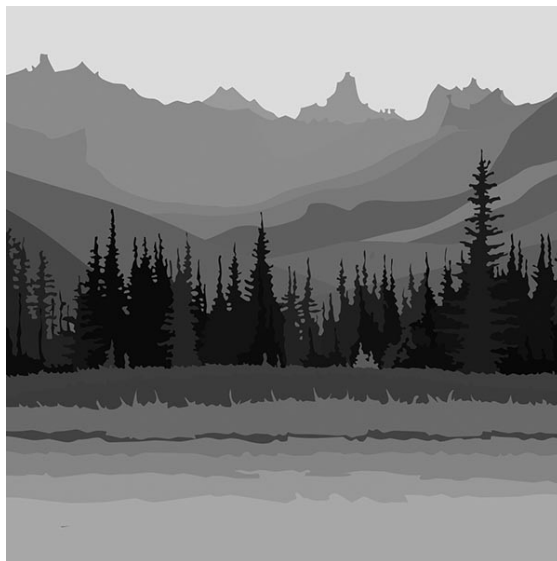

- I can write about ecological issues.
- I can write about causes, effects and solutions.
- I can ask and respond to suggestions.

Let's Explore!

Listen to the conversation between a member of Amazon Orientation and Jim, the leader of a community living in the Amazon rainforest.

Instructions: Read the text aloud.

- Staff member:** Jim, I would like you to meet our tour group. Why don't you tell them about your project?
- Jim:** Yes, I'd like to. We made changes to our lifestyle because of the negative impact of deforestation.
- Staff member:** Are you saying that due to the cutting down of trees in your area, your community changed their way of life?
- Jim:** Exactly. We had a lot of animals, but since many areas turned to desert, we cannot feed them anymore.
- Staff member:** Tell us about the project, Jim.
- Jim:** We knew that rainforest plants were good for our skin and hair. We decided to create our own products and sell them to the public.
- Staff member:** What a fantastic idea!
- Jim:** Our products are all natural, with no chemicals or artificial ingredients. Plus, they have an exotic smell.
- Staff:** How many products do you carry?
- Jim:** We currently have four - shampoo, conditioner, soap and face cream.
- Staff member:** Your community now has a bright future.
- Jim:** We do. How about your group stops by our warehouse tomorrow? We are sending out a big shipment.
- Staff member:** We'd love to. Thanks for the invitation.
