Let's Start!

Ecological problems? What do you mean?

Learning Outcome

Accurately use information about directions to places in a limited range of social situations.

Ask your partner:

- What are ecological problems?
- What ecological problems do you have in your country? What causes them?

Can Do Statements

- I can talk about ecological issues.
- I can give extended warnings, recommendations, or advice.
- I can talk about causes and effects.

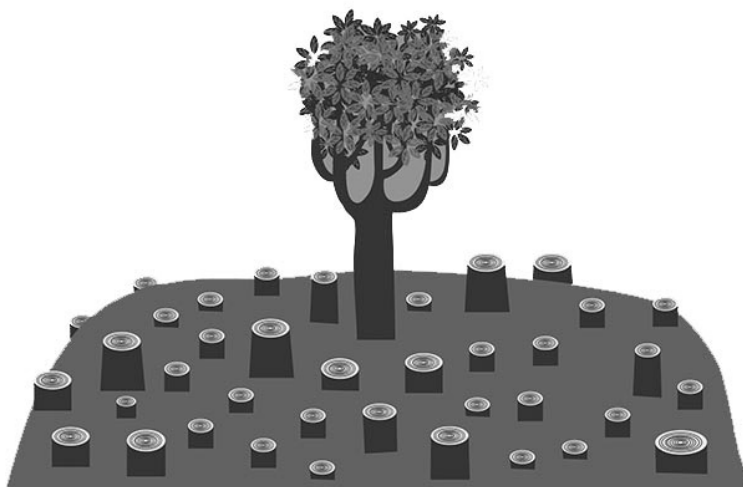

Let's Explore!

Is John going to **hike*** into the rainforest?

* When you "hike" you walk a long distance into the countryside.

Instructions: Read the text aloud.

John: I am here to sign up for the Amazon Orientation.
Guide: Wonderful!
John: Tell me about the rainforest.
Guide: It's an amazing place, but it's disappearing!
John: Why is it happening?
Guide: It's because people cut down millions of trees each year.
John: Do they cut trees in the forest because they need firewood?
Guide: They also take wood to make things to sell.
John: If you cut down too many trees, there is less oxygen in the air.
Guide: Yes, that's true. If too many trees are cut down, deserts can form. They take the place of plants and animals.
John: Big problems are caused by cutting trees!
Guide: If this continues, the rainforest may disappear soon.
John: It's a lot to think about.
Guide: Enjoy your once in a lifetime trip!

Let's Practice!

The guide tells John some general truths.

Instructions: Select the correct answer.

1. Deserts can form...
 - a. if there are too many trees.
 - b. if too many trees are cut down.
 - c. if the trees are too dry.
2. If the tree cutting continues ...
 - a. the rainforest may disappear.
 - b. the rainforest disappear.
 - c. we may disappear.
3. If you cut down too many trees ...
 - a. there is less oxygen in the air.
 - b. there is more oxygen in the air.
 - c. there is oxygen in the air.

Let's Practice!

Let's talk about ecological issues!

Instructions: Complete the sentences. Write the missing word. Use cut down, Why is, disappearing, to think about, Deserts, need firewood

Guide: It's an amazing place, but it's _____!

John: _____ it happening?

Guide: It's because people _____ millions of trees each year.

John: They cut trees because they _____?

Guide: _____ take the place of the plants and animals.

John: It's a lot _____.

Extension Activity

Let's talk about the rainforest.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Visit a website that talks about the Amazon rainforest in English.
- Write down 5 facts you learned.
- Practice saying the facts.
- Bring your facts to class.
- Tell a partner.
- Listen to their facts.

Self-Assessment

Yes

No

I find 5 facts about the rainforest.

☐
☐

I write sentences using my facts to describe the rainforest.

☐
☐

I present my facts to a partner.

☐
☐

Target Words

- **to disappear** (verb): to no longer be seen
e.g. The rainforest may disappear soon.
- **to cut down** (verb): to cut something and make it fall down
e.g. Please don't cut down that tree!
- **firewood** (noun): wood to burn for heat or cooking
e.g. Most modern houses do not use firewood.
- **oxygen** (noun): O₂ is what we need to breathe
e.g. We cannot live without oxygen.
- **true** (adjective): agreeing with a fact
e.g. What he says is true.
- **once in a lifetime** (expression): an opportunity you probably only get one time in your life
e.g. This job is a once in a lifetime opportunity!

Learning Points

Ecological Issues

When you talk about ecological issues, you identify problems. You also ask about or comment on these problems. Sometimes you suggest solutions.

Ecological Problem	Comment/ Question
<i>The rainforest is disappearing.</i>	<i>Why is that happening?</i>
<i>People cut down millions of trees each year.</i>	<i>Do they cut trees because they need firewood?</i>
<i>Deserts take the place of plants and animals.</i>	<i>It's a lot to think about.</i>

Cause and Effect

You use the *zero conditional* or words like *because* or *caused by* to talk about cause and effect.

Effect	Cause
<i>It's happening ...</i>	<i>because people cut down millions of trees each year.</i>
<i>Big problems ...</i>	<i>are caused by cutting trees!</i>
<i>Do they cut trees ...</i>	<i>because they need firewood?</i>
<i>Deserts can form ...</i>	<i>if too many trees are cut down.</i>
<i>They also cut down trees ...</i>	<i>to make and sell things.</i>
